## **DETAILED ACTION**

## Election/Restrictions

- 1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
  - I. Claims 1-21, drawn to polishing method and apparatus, classified in class 451, subclass 007.
  - II. Claims 22-29, drawn to method of making an abrasive tool, classified in class 51, subclass 298.

The inventions are distinct, each from the other because of the following reasons:

- 2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions method and apparatus for polishing have modes of operation, different function and different effect that a method for manufacturing an abrasive tool, and further these inventions are not capable of being used together, i.e., apparatus or method for polishing and making the polishing tool.
- 3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.
- 4. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.
- **5.** A telephone call was made to Mr. Robbins on Friday July 23, 2004 to request an oral election to the above restriction requirement, but did not result in an election being made.
